A PROCLAMATION

December 25, the President of the United States issued a proximation giving the government of the United States charge of all the railroads in the country. As we understand it, it is a way necessity and is sweeping in its scope, in that a Cabinet officer is made director general, so there shall be no misgivings as to who

The Colored people of this colintry have looked with favor on the plan because government ownership of raifroads immediately abolishes the "Jam Crow" cars through the South, which have heen a menace to the health and comfort of those of the race who have been competled to ride in such cars under the prevailing con-

ditions.

Already, as a result of the proclamation, hundreds of cars have been discontinued to conserve steam and man power which can be used in other channels to help win the war. The railroads have been cambelled to carry the cursed "Mim'Crow" Far which is the price of therace regulation. The state laws which permitted the price of the race prejudice. The state laws which permitted the practice, will have no standing before the executive order of the President of the United States.

Another phase of the question is, it is supposed that the government if the United States fosters no discrimination against any class of its citizens on account of race, color or previous condition. If that is true, then, goodbye "lim Crow" ears on all rail-

Failroads, fine, it will be the duty of Lisector General McAdgo to issue an opiner to that effect.

The enforcement of this order will have a far Teaching effect upon the markeipalities of the South which have separate afreet ear systems, in that it will enable them to better see the folly of their actions, and, no doubt, will seek to amend.

NECROES AND THE RED CROSS

The Red Croy campaign for members in St. Louis was a won-derful success. Reallesned quota was exceeded by many thous, and. How the Neyro citizena reapond? Did they measure up to the expectations? We are anxiously awaiting some official no to the expectations? We are anxiously awaiting some official no-tice from the Red Cross Campaign Committee as to the part our race has played; while waiting, we have gone through the sections of the city where most of the residents are Negroes and the presence of Red Cross service flags in windows has imbued to with the idea that Negro citizens of St. Louis are almost 100 per cent. Red

Crois members.

We have observed the Red Cross service flags in windows of Negre homes where foverty seemed to also dwell. We know of Cases, where the operations dollar that had been saved to purchase the Christmas dinner, was cheerfully given for the Red Cross feet of the Cases and the giver possibly ate his Christmas dinner at some licited gave her last extracted and with tears in her eyes, expensed regret, that in was the best she could do.
